

New Passenger Car Registrations *European Union*

PASSENGER CAR registrations: -7.1% over four months; +1.7% in April

In April, the EU* market of new passenger cars grew for the first time (+1.7%) since September 2011. The region counted on average two more working days compared to the same month last year, which would account for the increase. In absolute figures, it is the third lowest level of new registrations for a month of April, with the historic low for April reached in 2012 (1,021,358 units). A total of 1,038,343 units** was recorded in the EU* in April this year, or 1.7% more compared to the low level of April last year. **Four months into the year**, new car registrations amounted to 4,026,946 units, or 7.1% less than in the same period a year ago.

In April, results were varied across markets. Looking at the major ones, Germany (+3.8%), Spain (+10.8%) and the UK (+14.8%) expanded, while France (-5.3%) and Italy (-10.8%) faced a downturn.

From January to April, the UK remained the only major market to post growth (+8.9%). Spain (-6.7%), Germany (-8.5%), France (-12.3%) and Italy (-12.3%) all saw their demand decline, leading to an overall 7.1% decrease in the EU*.
